Saurabh Sangam

Front-End Web Developer

Creative thinker developing innovative, approachable frameworks for a variety of products. Skilled at implementing the design on the web using latest front-end technologies. Ceaselessly focused on user-centric design decisions. Accomplished at creating wholly new frameworks that feel completely familiar to ease user adoption.

EDUCATION

IIT Roorkee
Int M.Tech in Geological Technology

07/2019   *Expected May 2024*

Notable Courses
- Psychology
- Programming in C

PROJECTS

React Recipe App
Personal

Designed and developed a recipe book app using external api. Used frameworks like ReactJS, Bootstrap, material-ui along with SASS for styling.

Achievements
- Learn't and practiced react hooks (a new feature in react)
- Practiced latest ES6 syntax
- https://saurabhs78.github.io/react-recipe-app/

Paperviz
Open-source contribution

Paperviz is an application for browsing research papers from all major ML conferences around the globe

Achievements
- The app uses powerful ML techniques to visualise the papers
- Used d3.js for frontend
- Worked on the entire web development of the app
- http://www.paperviz.ml/

Portfolio Website
Personal

A portfolio website developed using HTML, CSS, Javascript and SASS

Achievements
- Designed and developed my portfolio website
- Used svg animations using css and javascript
- https://saurabhs78.github.io/portfolio2020/

LANGUAGES

`Javascript` `Sass` `HTML` `CSS` `PHP` `C/C++` `Python`

TECHNOLOGIES

Development
- ReactJS
- d3.js
- jQuery
- Bootstrap
- Git
- Linux
- VS Code
- MySQL

Design
- Figma
- Adobe Illustrator
- Blender 3D

ORGANIZATIONS

Powerplay - Coffer Developers (06/2020 - Present)
Powerplay is a construction based startup. I was offered an internship in this org. Worked closely with CEO, CTO and other team members remotely. Developed Org's website: https://www.getpowerplay.in/

SDSLabs (01/2020 - Present)
A team of designers and developers who work to foster technical activities in the campus. We build applications and regularly organise lectures, workshops, competitions, hackathons for the people of IIT Roorkee.

SKILLS

`Technical analysis` `Problem resolution`

`Iterative Development` `Design patterns and principles`

`Effective Collaboration` `Team management`
